

# 隧道熨烫机系列

TUNNEL IRONING MACHINE SERIES

LEXCEL

## QN-1300S 纯电款隧道式熨烫整型机

QW-1300S Pure Electric Automatic Tunnel Ironing Machine

## 机器特点 Machine Features

适用服装厂

Wide Range of Application

各类厚、薄面料，针织、梭织等面料的服装通用，适用范围广泛  
Almost all kinds of thick, thin fabrics, knitted, woven and other fabrics of clothing are universal.

免外接锅炉

Automatic bag sealing

无需锅炉，插电即用；行业首创快速升温降温技术  
Need't external boiler, plug and use, more flexible. With Lingchuang unique rapid heating and cooling technology!

高效熨烫

High efficiency Ironing

标准每小时熨烫800-1500件，一天约15000件  
Standard iron 800-1500 pieces/hour, around 15000 pieces/ day.

触控屏幕

Touch Screen

全电脑控制蒸汽单元、加热单元及热风循环过程  
The whole computer system controls the steam unit, heating unit and hot air circulation process.

专利技术

Patents

独创专利技术，更低碳、更节能、无水渍、熨烫效果更佳。  
Unique patented technology, more energy saving, much better ironing effect, no water stains after ironing. Making Fabrics more vibrant.

## 产品介绍 Production Introduction

用于大批量服装的去皱、熨烫整理，及烘干消毒。此纯电款隧道式整烫机，免外接锅炉，无蒸汽管道布局限制，机器摆放自由，插电即用。且比传统外接锅炉款隧道机更节能，每天约节省1000度电！首创快速升温降温专利技术，可在120秒内达到所需温度。独有的熨烫专利技术，可激活服装的颜色分子，使服装面料颜色更鲜艳！独特的气水分离技术，可分离蒸汽中99.5%的水分，达到熨烫后无水渍，节省人工烘干工序和时间。

将批量服装挂在送料缓存架上，自动进入隧道整烫机的高温蒸汽单元进行面料软化，送达热风单元进行烫平、烘干，出料自动送达落料缓存架上。一台机器日熨烫量约15000件，只需1-2人操作，大大减少大中烫工，降低人工成本，提高后整效率。

Pure electric Tunnel finisher, use for batch clothing wrinkle removal, ironing, and drying. Machine with built-in boiler, won't limited by external steam pipe layout, placed freely, plug in and use. And it is more energy-efficient than traditional external boiler tunnel machines, saving about 1000 kilowatt per day! LC pioneer patented technology of rapid heating and cooling, which can reach the required temperature in 120 seconds. Unique ironing patented technology can activate the color molecules of clothes, making the colors of clothing fabrics more vibrant! Unique air & water separation technology, can separate 99.5% water in steam, makes fabric without water stains after ironing, saves manual drying process and time.

Machine with drying function, saving manual drying time and space. A machine daily ironing capacity of about 15,000 pieces, only 1-2 people to operate, greatly reduce the large and medium ironing, reduce labor costs, improve the efficiency of finishing.

## 产品参数 Product Parameters

QN-1300S

重量 Weight	4800kg
空气消耗 Air consumption	0.5立方/小时 (cube/hour)
水消耗 Water consumption	1240kg/小时 (kg/hour)
最大效率 Max Efficiency	800-1500件/小时(pcs/H)
功率 Power	120 KW
电压 Voltage	380 V
气压 Air pressure	0.6 Mpa
机器尺寸 Machine Dimensions	运输尺寸 9750*1300*2450 mm 安装尺寸 9730*2300*2650 mm
